ROC-HV SKID

High-Volume RO Filtration System

Engineered for Demanding Commercial & Industrial Applications

- **World Class Manufacturing Facility**
- **Advanced Membrane Technology**
- **Precision Manufacturing Tolerances**
- **Made in the USA**

FEATURES:

- System Levelers
- FRP Membrane Housings
- Comes Packaged in Wood Crate
- 100% Wet Tested and
- 4.5” X 20” White Filter Housing
- Powder Coated Aluminum Frame
- Dual 0-100psi Pre-Filter Pressure Gauges
- Dual 0-300psi Pump & Concentrate Pressure Gauges
- Stainless Steel Permeate Flow Meter
- 100-Series Reverse Osmosis Membranes
- Chemical Injection port & Electrical Outlet
- Goulds Stainless Steel Pump & TEFC Motor
- Stainless Steel Concentrate Recirculate Flow Meters
- 1” 304 Stainless Steel, IP65 Rated Inlet Solenoid Valve
- 15/30psi Low Pressure Switch, 40/60psi Tank Pressure Switch
- ROC3 Controller with LCD Display, Feed/Permeate TDS & % Rejection
